Guia de Configuração Administrativa

Para Administradores (Configuração para todo o site)

Um administrador do Moodle pode configurar ferramentas externas em "[Site administration](#) > [Plugins](#) > [Activity modules](#) > [External Tools](#) > [Manage tool](#)" para que estejam disponíveis em todo o site.

The screenshot displays the Moodle Site Administration interface. At the top, the navigation menu includes 'Pearson HA Demo Site', 'Home', 'Dashboard', 'My courses', and 'Site administration' (highlighted with a red box). On the right, there are notification icons, a user profile 'RC', and an 'Edit mode' toggle. Below the navigation, the 'Site administration' section is active, with a search bar on the right. The sub-menu includes 'General', 'Users', 'Courses', 'Grades', 'Plugins' (highlighted with a red box), 'Appearance', 'Server', 'Reports', and 'Development'. Under 'Plugins', there are links for 'Install plugins' and 'Plugins overview'. Under 'Activity modules', a list of modules is shown, including 'Manage activities', 'Common activity settings', 'Assignment', 'Assignment settings', 'Submission plugins', 'Manage assignment submission plugins', 'File submissions', 'Online text submissions', 'Feedback plugins', 'Manage assignment feedback plugins', 'Feedback comments', 'Annotate PDF', 'File feedback', 'Offline grading worksheet', 'Book', 'Chat', 'Database', 'External tool', 'Manage tools', 'Feedback', 'File', 'Folder', 'Forum', 'Glossary', 'IMS content package', 'Label', 'Lesson', 'Page', and 'Quiz'.
